Dear Presidents and Delegates,

Welcome to the APRU 23rd Annual Presidents’ Meeting and welcome to UCLA! It is an honor to host this year’s meeting here on our campus as we mark UCLA’s 100th anniversary. We recently began a yearlong celebration of our centennial, and I look forward to sharing this important occasion with all of you.

The theme of this year’s annual meeting is “Universities in an Age of Global Migrations,” which allows us to explore an issue directly relevant to all APRU members and their communities. Over the next few days, we will hear insights into this worldwide phenomenon and have the opportunity to deliberate how universities and our societies can best address the challenges and opportunities of shifting populations and their impact on our future.

I am very proud of all that our diverse network of universities has achieved — and will continue to achieve — through this important and collaborative organization. Over the years, APRU has facilitated high-level exchanges on higher education policy and practice, while playing an increasingly important role in influencing international public policy and fostering partnerships across borders. Several new APRU initiatives are being introduced at this meeting that will further that work and our mission.

I look forward to a successful and productive meeting.

Gene D. Block
Chair, APRU
Chancellor, UCLA
### PROGRAM SCHEDULE
(as of June 13, 2019)

#### JUNE 23 | SUNDAY

<table>

| 7:30 a.m. - 8:30 a.m. | Asia-Pacific Women in Leadership (APWiL) Program Breakfast Meeting *(by invitation)*  
Artistry Room, Level Two, Luskin Conference Center |
| 9:00 a.m.    | Meeting Starts  
Centennial Ballroom C & D, Level One, Luskin Conference Center |
| 9:05 a.m. - 10:00 a.m. | Keynote Address III: Different Migration Policies Around the World  
Centennial Ballroom C & D, Level One, Luskin Conference Center  
*Immigration brings benefits, and it poses problems. The resulting controversies are playing out differently around the world, because countries differ greatly in their opportunities, cultures, receptivities, demographics, histories, and geographic exposures for immigration. Of course every country is different, and no country is a good model for the USA, but are there any things that we can learn from other countries about what to do, and about what not to do?*  
Keynote Speaker: **Dr. Jared DIAMOND**, Professor of Geography, UCLA  
Chair: **Professor Gail KLIGMAN**, Associate Vice Provost, International Institute, UCLA  
Moderators: **UCLA Chancellor Gene BLOCK**, APRU Chair  
**Professor Cindy Fan**, Vice Provost for International Studies and Global Engagement, UCLA |
| 10:00 a.m. - 10:30 a.m. | Coffee Break |
| 10:30 a.m. - 11:45 a.m. | Presidential Forum – University Leadership and Diversity  
Centennial Ballroom C & D, Level One, Luskin Conference Center  
*University presidents are invited to share their experiences and strategies to diversify the pipeline of higher education leadership, focusing on developing leaders with international and immigrant backgrounds, fostering their aspirations to leadership.*  
Moderator: **Yojana SHARMA**, Asia Editor, University World News  
Panelists: **President Bundhit EUA-ARPORN**, Chulalongkorn University  
**Rector David GARZA**, Tecnológico de Monterrey  
**Vice-Chancellor and Principal Michael SPENCE**, The University of Sydney  
**President Ana Mari CAUCE**, University of Washington |
| 11:45 a.m. - 12:15 p.m. | Business Session  
Centennial Ballroom C & D, Level One, Luskin Conference Center  
*• Election of Steering Committee 2019  
• APRU Presidential Statement  
• Invitation to Senior International Leaders’ Meeting 2019 by  
  **President and Vice-Chancellor Santa ONO**, The University of British Columbia

Centennial Terrace, Level Three, Luskin Conference Center |
| 1:30 p.m. - 2:30 p.m. | Steering Committee Meeting *(for Steering Committee Members)*  
Collaboration Boardroom, Level Two, Luskin Conference Center |
The movement of people around the Asia-Pacific region has enriched our societies and enhanced the academy. Yet shifts in public policy in many societies are raising questions about social justice and are impinging on collaboration in higher education and research.

**Universities in an Age of Global Migrations** is the theme of the 23rd Annual Presidents’ Meeting hosted by UCLA on June 23-25, 2019. APRU presidents will deliberate with experts on migration, other leaders from academia and international public policy, on ways research universities should respond to these trends.

Focused on the Asia-Pacific region, the meeting will address global migration in relation to Asia-Pacific challenges such as climate change and inequality as well as campus issues of equity and diversity.
BIOGRAPHIES OF PRESIDENTS
(in alphabetical order by name of university)

Gene D. BLOCK
Chancellor, UCLA and APRU Chair

As UCLA Chancellor since 2007, Professor Gene Block oversees the university’s three-part mission of education, research and service. He has defined academic excellence, civic engagement, diversity and financial security as top priorities for his administration. A champion of public universities, his dedication to access and affordability has maintained and enhanced UCLA’s position as a national leader in enrolling undergraduates who come from underrepresented groups, are first in their families to attend college and are Pell Grant recipients.

Under Chancellor Block’s leadership, UCLA has been named the number one public university in the United States, has grown its profile internationally and receives $1 billion annually in research grants.

An expert in neuroscience, Chancellor Block’s current research focuses on the effects of aging in the nervous system and how it impacts biological timing in mammals. He holds faculty appointments in the UCLA David Geffen School of Medicine and the UCLA College of Letters and Science.

Before becoming Chancellor of UCLA, Block spent 29 years at the University of Virginia, where he was most recently vice president and provost. He has served on the executive boards of several leading organizations, including the Association of American Universities, Association of Public and Land-grant Universities and Association of Pacific Rim Universities.

Thomas F. ROSENBAUM
President, California Institute of Technology

Professor Thomas F. Rosenbaum is the ninth president of the California Institute of Technology and Professor of Physics. He is an expert on the quantum mechanical nature of materials, conducting research at Bell Laboratories, IBM Watson Research Center, and the University of Chicago, where he served as Vice President for Research and for Argonne National Laboratory and then Provost, before moving to Caltech in 2014. He received his bachelor’s degree in physics with honors from Harvard University and a Ph.D. in physics from Princeton University.

Professor Rosenbaum is an elected fellow of the American Physical Society, the American Association for the Advancement of Science, and the American Academy of Arts and Sciences.

Bundhit EUA-ARPORN
President, Chulalongkorn University

Professor Bundhit Eua-arporn is the President of Chulalongkorn University and Professor of Electrical Engineering. He is a member of APRU Steering Committee, and a former Executive President of Asian Universities Alliance (AUA).

Professor Eua-arporn served as Dean of Faculty of Engineering and Director of Energy Research Institute, Chulalongkorn University. He has more than 25 years of experience in many large-scale projects related to electricity, natural gas, petroleum and renewable energy. He is a founder of Siam Innovation District, an innovation ecosystem in downtown Bangkok, Thailand established through partnerships of academia, government and industry to be a gateway and a platform to connect ASEAN and global innovation communities. Professor Eua-arporn is also a pioneer in education innovation setting up Chulalongkorn University’s Innovation Hub, MOOCs, and the School of Integrated Innovation offering the first Bachelor degree of Arts and Sciences in Data Science and Artificial Intelligence in Thailand.

Professor Eua-arporn holds a Ph.D. in Electrical Energy System from Imperial College of Science, Technology and Medicine and an M.Eng. and a B.Eng. from Chulalongkorn University.
Nikita Yu. Anisimov
President, Far Eastern Federal University

Professor Anisimov was appointed President of Far Eastern Federal University in August 2016.

Prior to joining Far Eastern Federal University, Professor Anisimov worked in Lomonosov Moscow State University in position of Chief Specialist, Head of Department, Deputy Vice-Rector, Vice Chairman of the Central Admissions Committee, Director of the Institute for Retraining and Professional Development, and Vice-Rector from 2002 to 2013. Professor Anisimov also held the position of Vice President for Academic Affairs, First Vice President, Interim President of Moscow Polytechnic University from 2013 to 2016.

He served as Executive Secretary of the Russian Council of School Olympiads from 2007 to 2009. He graduated with Honors in Mathematics and Applied Mathematics from Lomonosov Moscow State University in 1998 and was awarded a Ph.D. degree in Physics and Mathematics in 2001. Professor Anisimov holds an Honorary Doctorate from Tokai University of Japan.

Jin Taek Chung
President, Korea University

Professor Jin Taek Chung is the 20th President of Korea University and is a Professor of Mechanical Engineering. He has previously served as Vice President for Development and External Affairs, Dean of the College of Engineering, Dean of the Graduate School of Engineering and Technology, Dean of the Korea Techno Complex and Dean of the Graduate School of Management of Technology.

Professor Chung has conducted research as a Visiting Professor at the University of Minnesota, the University of Maryland and The George Washington University in USA. He has authored numerous articles, reviews, reports and books on energy systems and turbomachinery.

Professor Chung has received several academic honors including the Valedictorian Prize from Korea University, the Best Paper Prize from the Korean Society of Mechanical Engineers, the Merit-based Prize for the Enhancement of Industry-University-Institute Collaboration from the Ministry of Knowledge Economy, and the Prize for Esteemed Scholarship from the Korean Society for Fluid Machinery. He has also received numerous Seoktop Excellence in Teaching Awards and Excellent Lecture Awards given by Korea University.

He currently serves on the Board of Directors of the Korean Society of Mechanical Engineers and is the President of the Korean Society for Fluid Machinery among other affiliations.
BIOGRAPHIES OF PRESIDENTS

Chung-Ming KUAN
President, National Taiwan University

Chung-Ming Kuan received his Ph.D. in Economics from University of California, San Diego in 1989. He was an assistant professor and associate professor with tenure at the Department of Economics, University of Illinois at Urbana-Champaign (1989-1996), full professor at the Department of Economics, National Taiwan University (1994-1999), and a distinguished research fellow and the director of the Institute of Economics, Academia Sinica (1999-2009). He was elected as an Academician of Academia Sinica in 2002 and a Fellow of The World Academy of Sciences (TWAS) in 2014.

Professor Kuan was appointed as a Minister without Portfolio in the Executive Yuan of ROC government in 2012 and later also served as Minister of the Council for Economic Planning and Development (2013-2104) and Minister of the National Development Council (2014-2015). He returned to National Taiwan University in 2015 and currently serves as President and Chair Professor of National Taiwan University.

Hong HOCHENG
President, National Tsing Hua University

Professor Hong Hocheng received his Ph.D. in Mechanical Engineering from University of California, Berkeley in 1988. His research interest lies in the innovative manufacturing processes. He has been cited Outstanding Teaching from NTHU, Outstanding Research Awards from National Science Council, National Academic Prize of Ministry of Education, and the Professor Fryderyk Staub Golden Owl Award from World Academy of Manufacturing and Materials Engineering.

Professor Hocheng has also been dedicated to the service at NTHU as the Dean of General Education, Dean of Student Affairs, and Dean of College of Engineering. President Hocheng served as the Deputy Minister of the National Science Council of the Executive Yuan and is the current President of National Tsing Hua University.

Se-Jung OH
President, Seoul National University

Professor Se-Jung Oh is the 27th President of Seoul National University, effective February 1, 2019. Under his leadership SNU aims at becoming one of the world’s leading universities both in research and teaching.

He earned his Ph.D. degree in Physics from Stanford University in 1982, and worked at Xerox Palo Alto Research Center as a visiting scientist before becoming an assistant professor in Department of Physics and Astronomy in SNU. He had dedicated himself to researching and teaching over more than 20 years, and became an emeritus professor in 2018. During his tenure at SNU, he served numerous leadership positions including Dean of College of Natural Sciences in 2004-2008, Vice President of the Korean Physical Society, executive board member of the Korean Vacuum Society, and member of the Korean Academy of Science and Technology (KAST). In 2016, he was elected as a member of the National Assembly of Korea, and served at the standing committees for Education, as well as for Science and Technology.

His research field is the experimental condensed matter physics using synchrotron radiation, and has (co-)authored more than 170 research papers in international journals. For his scientific achievements, he was awarded the Korean Science Award in Physics in 1998 and the Outstanding Research Paper Award in 1994 from the Korean government.

Professor Oh has been active in advising the Korean government on science and technology policies and is also well-known for his endeavors for the public understanding of science and technology and the promotion of math, science and engineering education.
David GARZA
Rector, Tecnológico de Monterrey

Professor Garza received a BSc in Computer Science and Engineering from Tecnológico de Monterrey and a Ph.D. in Computer Science from Colorado State University.

He has a trajectory of more than 30 years with Tecnológico de Monterrey where he has served in different academic and leadership positions such as Director of Graduate Programs, Dean of Division, Dean of the School of Engineering (Monterrey campus), Director of Campus (San Luis Potosí campus), Regional Rector –responsible of the academic operations of Monterrey Campus (main campus), Vice Provost for Undergraduate Education -he led key academic initiatives related to improving the quality of students, faculty and the development of Tec21 Educational Model and Vice Provost for Academic Affairs.

He is Rector of Tecnológico de Monterrey since July 1, 2017, a private nonprofit comprehensive university with 26 campuses in México and nearly 90,000 students (55,500 undergraduate, 8,000 graduate and 26,000 senior high school). It is international recognized for its strong reputation among employers and its entrepreneurial orientation, and it is consistently ranked among the top universities in Latin America.

Rocky S. TUAN
Vice-Chancellor and President, The Chinese University of Hong Kong

Professor Rocky S. Tuan assumed office as the eighth Vice-Chancellor and President of The Chinese University of Hong Kong on January 1, 2018. He is concurrently Lee Quo Wei and Lee Yick Hoi Lun Professor of Tissue Engineering and Regenerative Medicine at the University. Prior to joining CUHK in 2016 as a distinguished visiting professor and the founding director of the Institute for Tissue Engineering and Regenerative Medicine, he held several appointments at the University of Pittsburgh, including distinguished professor of orthopaedic surgery and director of the Center for Cellular and Molecular Engineering in the School of Medicine. He is also founding director of the Center for Military Medicine Research and Associate Director of the McGowan Institute for Regenerative Medicine.

Professor Tuan is an internationally renowned biomedical scientist specializing in musculoskeletal biology and tissue regeneration, whose work covers both basic science and engineering, as well as translational and clinical applications. His significant contributions have been recognized by the Hap Paul Award of the International Society of Technologies in Arthroplasty in 1997, the Marshall Urist Award for Excellence in Tissue Regeneration Research of the Orthopaedic Research Society in 2004, the Carnegie Science Award in Life Sciences, and the Clemson Award of the Society for Biomaterials in 2016. In 2017, Professor Tuan was elected a Fellow of the National Academy of Inventors (NAI) for his accomplishments in innovation and translational research that bring significant impact on society.
**Stuart N. McCUTCHEON**  
Vice-Chancellor, The University of Auckland

Professor McCutcheon completed his Bachelor’s degree with first class honours at Massey University in 1976, and was then appointed to the lecturing staff of that university while undertaking a Ph.D. in metabolic physiology. From 1982 to 1984 he was a postdoctoral fellow at Cornell University, New York, while the recipient of a Harkness Fellowship. His research interests included how biological processes such as foetal and neonatal growth and lactation are regulated. He was appointed Head of the Department of Animal Science at Massey University in 1990, Assistant Vice-Chancellor (Research) in 1994, and Deputy Vice-Chancellor in 1999.

In November 2000, Professor McCutcheon was appointed Vice-Chancellor of Victoria University of Wellington. On January 1, 2005 he took up the position of Vice-Chancellor of The University of Auckland. He also chairs the University’s research commercialisation company, Auckland UniServices Limited.

Professor McCutcheon has served in an advisory capacity to a number of Government agencies and producer boards, and been a director or board member of: the New Zealand Dairy Research Institute; the Wellington Regional Economic Development Trust; the Wellington College of Education; the Malaghan Institute of Medical Research; Universitas 21, U21 Global and the Worldwide Universities Network; The University of Auckland Foundation; the UK and US Friends of The University of Auckland; Auckland Tourism, Events and Economic Development (ATEED); and the Kings School Trustees Board. He was Chair of Universities New Zealand during 2017 and 2018.

**Santa J. ONO**  
President and Vice-Chancellor, The University of British Columbia

In 2016, Professor Ono was appointed as the 15th president and vice-chancellor of The University of British Columbia, a global centre for research and teaching, consistently ranked among the 40 best universities in the world. As president, he leads an institution boasting 63,000 students, 5,500 faculty and 10,000 staff, and a $2.5 billion operating budget.

As an administrator, Professor Ono is known for his vision beyond the laboratory. He was the first Asian-American president of the University of Cincinnati when he was appointed in 2012.

Previously, he served as the University Provost and Senior Vice President for Academic Affairs at the University of Cincinnati and Senior Vice Provost and Deputy to the Provost at Emory University. Inside Higher Education named him America’s most notable university president in 2015. In 2016, the American Council on Education awarded him the Reginald Wilson Diversity Leadership Award.

As a professor of medicine and biology, Professor Ono has worked at Harvard, Johns Hopkins, University College London, and Emory universities. He was also inducted by Johns Hopkins into its Society of Scholars, and as a Fellow of the Royal Society of Chemistry, the Canadian Academy of Health Sciences, the American Association for the Advancement of Science and the National Academy of Inventors, USA.

Professor Ono’s research encompasses the immune system, eye inflammation and age-related macular degeneration.
Michael SPENCE
Vice-Chancellor and Principal, The University of Sydney

Professor Michael Spence is the Vice-Chancellor and Principal of The University of Sydney – the first to open its doors in Australia in 1850.

Under his leadership, the University is forging a distinctive strategy focused on the transformation of undergraduate education; promoting multidisciplinary research; improving institutional culture; simplifying organisational design; campus redevelopment; investment in research and teaching infrastructure and securing financial sustainability. To these ends, he has led Australia's first $1 billion philanthropic fundraising campaign, and a process to develop a second independent campus for the University.

An alumnus of the University of Sydney, Professor Spence graduated with first-class honours in English, Italian and law. His other languages include Chinese and Korean. He lectured in law at the University and worked for the Australian Copyright Council prior to undertaking doctoral studies at the University of Oxford. There, he obtained a Doctor of Philosophy, a Postgraduate Diploma in Theology and became a Fellow of St. Catherine’s College at Oxford. During his 20 years at the College he headed Oxford’s law faculty and its Social Sciences division.

In 2017, he was awarded a Companion of the Order of Australia in the Australia Day Honours for service to leadership of the tertiary education sector, to the advancement of equitable access to educational opportunities, to developing programs focused on multidisciplinary research, and to the Anglican Church of Australia.

Xiang ZHANG
President and Vice-Chancellor, The University of Hong Kong

Professor Xiang Zhang was appointed the 16th President and Vice-Chancellor of the University of Hong Kong (HKU) on December 15, 2017.

Prior to joining HKU, he was the inaugural Ernest S. Kuh Endowed Chair Professor at the University of California, Berkeley, and the Director of the Nano-scale Science and Engineering Center (SINAM).

Professor Zhang is an elected member of the US National Academy of Engineering (NAE) and of Academia Sinica, a foreign member of the Chinese Academy of Sciences, and a Fellow of the American Physical Society (APS), the Optical Society of America (OSA), the American Association for the Advancement of Science (AAAS), and the International Society of Optical Engineering (SPIE).

Professor Zhang’s current research focuses on materials physics, metamaterials and nano-photonics. He has published over 340 journal papers including 70 publications in Science and Nature family series. He has given over 330 Keynote, Plenary and Invited talks at international conferences and institutions.

In 2008, Professor Zhang’s research was selected by *Time Magazine* as one of the “Top Ten Scientific Discoveries of the Year” and “50 Best Inventions of the Year”, *Discover Magazine’s* “Top 100 Science Stories” in 2007, and *R&D Magazine’s* top 25 Most Innovative Products of 2006.
Hideo OHNO  
President, Tohoku University  
Professor Hideo Ohno received his Ph.D. from the University of Tokyo in 1982. He studied as a visiting graduate student at Cornell University in 1979 and joined Hokkaido University from 1982. He was a visiting scientist at the IBM T. J. Watson Research Center from 1988 to 1990. He was appointed Professor at Tohoku University in 1994 and has served as President since 2018.

Professor Ohno has published 560 papers in the fields of spintronics and semiconductor science and technology, which have been cited over 46,000 times. He received the IBM Japan Science Award, the IUPAP Magnetism Prize, the Japan Academy Prize, the Tohoku University Presidential Prize for Research Excellence, the 2005 Agilent Technologies Europhysics Prize, IEEE Magnetics Society Distinguished Lecturer for 2009, the Thomson Reuters Citation Laureate, the JSAP Outstanding Achievement Award, the IEEE David Sarnoff Award, the JSAP Compound Semiconductor Electronics Achievement Award, the Leo Esaki Prize, the C&C Prize and the MEXT Commendation for Science and Technology. Professor Ohno has been an honorary professor of the Institute of Semiconductors, Chinese Academy of Sciences and a fellow of the Institute of Physics, the Japan Society of Applied Physics, the American Physical Society, and the Institute of Electrical and Electronics Engineers.

Gary S. MAY  
Chancellor, UC Davis  
As UC Davis’ seventh chancellor, Professor Gary S. May leads one of the nation’s most academically and socially diverse universities. His vision is to lead UC Davis to new heights in academic excellence, diversity, public service and upward mobility for students from all backgrounds.

Chancellor May came to UC Davis in 2017 after serving as dean of Georgia Tech’s College of Engineering, the nation’s largest and most diverse school of its kind. In 2015, President Obama honored him with the Presidential Award for Excellence in STEM Mentoring.

Professor May earned his master’s and Ph.D. degrees in electrical engineering and computer science at UC Berkeley. He has won numerous awards for his research in computer-aided manufacturing of integrated circuits.

In September 2018, Professor May was inducted to the National Academy of Engineering for his success in attracting and retaining engineering students from underrepresented backgrounds and his innovations in semiconductor manufacturing.

Howard GILLMAN  
Chancellor, UC Irvine  
Professor Gillman became the sixth chancellor of the University of California, Irvine in September 2014. He is an award-winning scholar and teacher with an expertise in the American Constitution and the Supreme Court, and holds faculty appointments in the School of Law, the Department of Political Science, the Department of History, and the Department of Criminology, Law and Society.

Under Chancellor Gillman’s leadership, UCI has accelerated its ascendency among globally preeminent research universities. It has been ranked in the top 10 of all public universities in the nation by U.S. News & World Report; furthered its national leadership in sustainability; solidified its status as a “first choice” school for undergraduates by receiving more than 117,000 freshman and transfer applications for fall 2019; received special recognition for advancing student success and promoting social mobility; fostered regional economic development through UCI Applied Innovation; and expanded its capacity to improve lives in our region and around the world.

A native of Southern California, Chancellor Gillman grew up in North Hollywood and was a first-generation college student. He earned bachelor’s, master’s, and doctoral degrees in political science at UCLA.
Pradeep KHOSLA  
Chancellor, UC San Diego

Professor Pradeep K. Khosla is an internationally renowned electrical and computer engineer recognized for his seminal contributions in secure software, intelligent robot systems, and mechanical design. As UC San Diego’s chief executive officer, Chancellor Khosla provides vision and strategy, leading a campus of more than 38,000 students within six undergraduate colleges and 11 academic divisions and graduate schools; a preeminent health system; and the prestigious Scripps Institution of Oceanography.

Chancellor Khosla has positioned UC San Diego to define the future of the public research university by activating the institution’s first-ever strategic plan and launching the Campaign for UC San Diego, an ambitious 10-year, $2 billion endeavor aimed at transforming the university physically, intellectually and culturally. $1.8 billion has been raised in less than seven years.

The campus is currently undergoing a $2 billion construction boom to expand classroom and research space and double the number of beds to provide a four-year housing guarantee to undergraduates at 20 percent under market rate.

Under Khosla’s leadership, UC San Diego has expanded college access and affordability for underserved students, initiated campus-wide interdisciplinary research initiatives to foster collaboration and solve societal challenges, and strengthened university and community partnerships to drive regional impact.

Henry T. YANG  
Chancellor, UC Santa Barbara

Henry T. Yang is the Chancellor of UC Santa Barbara and a professor of mechanical engineering. He was formerly the Neil A. Armstrong Distinguished Professor of Aeronautics and Astronautics at Purdue University, where he served as the dean of engineering for 10 years. He holds a B.S. and an honorary doctorate from National Taiwan University, and chaired the International Advisory Board to the President of NTU in 2016-17.

Professor Yang is a member of the U.S. National Academy of Engineering and Academia Sinica. He is a Fellow of the American Institute of Aeronautics and Astronautics, the American Society for Engineering Education, and the American Society of Mechanical Engineers. He has authored or co-authored more than 180 articles for scientific journals, as well as a widely used textbook on finite element structural analysis. He has received a number of recognitions for his research, teaching, and public service, including the Benjamin Garver Lamme Medal from the American Society of Engineering Education; the Structures, Structural Dynamics, and Materials Award from the American Institute of Aeronautics and Astronautics; and eight honorary doctorates. In 2016 he received the National Academy of Engineering’s Arthur M. Bueche Award.

Professor Yang currently chairs the Thirty Meter Telescope International Observatory. He also serves on the Kavli Foundation Board. He is a past chair of the Association of American Universities and the Association of Pacific Rim Universities, and served two terms on the President’s Committee on the National Medal of Science.

Ennio VIVALDI VÉJAR  
Rector, University of Chile

Professor Vivaldi is the Rector of the University of Chile and President of CUECH, the Consorcio de Universidades del Estado de Chile (Consortium of State Universities of Chile).

Professor Vivaldi, MD is a professor in physiology and biophysics at the Institute of Biomedical Sciences, Faculty of Medicine of the University of Chile. A global leader in sleep physiology, a specialization developed in the Harvard-MIT joint program, Professor Vivaldi is a highly recognized researcher at the national and international level, collaborating with several labs in different countries, including the United States, the Netherlands, Italy, Argentina, and Brazil.

He has made significant contributions in the area of sleep regulation and chronobiology and his findings have been published in the most prestigious international journals. Professor Vivaldi actively participates in scientific societies, such as the World Federation of Sleep Research and Sleep Medicine Societies (Vice President), the Latin American Society for Sleep Studies (President) and the Society of Biology of Chile, and the Scientific Committee for Antarctic Research, Chile.
**David LASSNER**  
President, University of Hawai‘i

Dr. David Lassner is the 15\textsuperscript{th} president of the University of Hawai‘i. In that capacity he leads the University of Hawai‘i (UH) 10-campus system as well as the flagship research university, UH Mānoa. Lassner’s current agenda includes a focus on helping more Hawai‘i residents earn college credentials and developing an innovation sector to strengthen the state’s economy while creating high-quality jobs. He is also advancing UH’s commitments to sustainability and becoming a model indigenous-serving university.

Lassner began working at UH in information technology in 1977, eventually becoming UH’s first chief information officer and vice president for IT before assuming the presidency in 2014. Lassner has also taught online and in-person in computer science, communications, business and education.

Lassner is currently a commissioner of the Western Interstate Commission on Higher Education (WICHE), vice chair of the National Association of System Heads, and a member of the Board of Governors of the East-West Center. Lassner has served as a principal investigator for more than $400 million in extramural funding.

Lassner earned an AB in economics *summa cum laude* followed by an MS in computer science from the University of Illinois at Urbana-Champaign. He earned his Ph.D. in communication and information sciences from the University of Hawai‘i.

---

**Abdul Rahim Hj HASHIM**  
Vice-Chancellor, University of Malaya

Datuk Ir. Dr. A Rahim Hj Hashim was appointed Vice-Chancellor of the University of Malaya on November 1, 2017. He graduated in Electrical and Electronics Engineering from the University of Birmingham, United Kingdom in 1976 and later received an Honorary Doctorate in Engineering from the same university in 2006.

A professional engineer, he sat on the Board of Engineers Malaysia and was Chairman of the Engineering Accreditation Council of Malaysia (2007-2012). He is currently an Advisor of Institute of Materials Malaysia, a Fellow and a Council Member of the Academy of Sciences Malaysia, a member of the Board of Engineers National Monitoring Committee, a board member of ICE Petroleum Engineering Sdn. Bhd., a board member of Deleum Berhad (a public listed company) and a Board Member of Malaysia Convention & Exhibition Bureau MyCEB’s (MyCEB).

In October 2016 he was admitted as a William Pitt Fellow by the Pembroke College of Cambridge. He is the Past President of the International Gas Union (2009-2012), the Immediate Past President of the Malaysian Gas Association (2003-2015) and Past President of the Asia Pacific Natural Gas Vehicle Association (2003-2009). He attended the Harvard Advance Management Program in 1997.
**Ana Mari CAUCE**  
President, University of Washington

Professor Ana Mari Cauce is the 33rd President of the University of Washington where she has been a member of the faculty since 1986. A graduate of the University of Miami and Yale University, she is a noted scholar on risk and resilience among adolescents and has received numerous awards for her research as well as the University's Distinguished Teaching Award. Before becoming president in 2015, she served as chair of the Departments of American Ethnic Studies and Psychology, as dean of the College of Arts and Sciences and as provost, the University's chief academic officer. In 2008, she played a key role in establishing the Husky Promise, a program that has helped more than 40,000 low-income students attend the UW.

Since becoming president, Professor Cauce has put a spotlight on the UW's work in Population Health across the University, launched the University's Race & Equity Initiative and been a champion for ensuring the UW and public higher education across the country remain accessible and affordable for all students. As president, and throughout her tenure, she has worked to advance the University's mission of serving the public good by focusing on the UW's impact on the lives of the people in Washington and throughout the world.

**Michael H. SCHILL**  
President, University of Oregon

Professor Schill is the 18th president of the University of Oregon. He began his tenure on July 1, 2015. He previously served as the dean and Harry N. Wyatt Professor of Law at the University of Chicago Law School.

Prior to joining the University of Chicago in 2010, Professor Schill served as the dean of the University of California, Los Angeles School of Law from 2004 to 2009. His other faculty appointments include tenured positions as professor of law and urban planning at New York University and professor of law and real estate at the University of Pennsylvania.

A nationally recognized expert in property, real estate, and housing law and policy, Professor Schill is the author or co-author of three books and more than 40 scholarly articles. His work includes studies of the determinants of value in condominium and cooperative housing, the impacts of housing programs on property values, the enforcement of Fair Housing laws, mortgage securitization, and the deregulation of housing markets. His casebook, Property, co-authored with James Krier, Greg Alexander, and Lior Strahilevitz is one of the best-selling casebooks used in American law schools.

In 2004, Professor Schill founded the Furman Center for Real Estate and Urban Policy at New York University. Under his and subsequent leadership, the Furman Center has become one of the nation's leading research centers on housing and the built environment.

In addition to serving as the president of the University of Oregon, Professor Schill is a member of the Board of Governors of Argonne National Laboratory, a member of the Board of Trustees of Ithaka, the nonprofit organization that owns JSTOR, and is a Fellow of the American Academy of Arts and Sciences.

Professor Schill graduated with an AB in public policy from Princeton University in 1980 and a JD from the Yale Law School in 1984.
Aiji TANAKA
Professor Aiji Tanaka, currently serving as the 17th President of Waseda University, was born in 1951 in Tokyo, Japan. He graduated from Waseda University in 1975 with a B.A. in political science and then went on to pursue graduate work in the United States, obtaining a Ph.D. in political science from Ohio State University in 1985. Before becoming a professor at the School of Political Science and Economics at Waseda University, Professor Tanaka taught in other Japanese universities, such as Aoyama Gakuin University and Toyo Eiwa University.

At Waseda, Professor Tanaka has served as Dean of Academic Affairs (2006-2010), Vice Provost for Academic Affairs (2010-2014) and Director of the Global Education Center (2014-2018). He also serves in various important capacities outside of the University, including as a member of the Center Council for Education at the Ministry of Education, Culture, Sports, Science and Technology and as a member of the Japan Society for the Promotion of Science.

In addition, Professor Tanaka has been engaged with the international academic community in numerous ways, such as by serving as President of International Political Science Association (IPSA) from 2014-2016, becoming the second Japanese person to hold this position.

His published books include Jukugi no Koyo, Jukuryo no Koka (Usefulness of Deliberation with Other People and Effects of Deliberation within Oneself), Tokyo: Keiso-shobo, 2018 (Edited and Coauthored), and Seijigaku (Political Science: Theory and Scope), Tokyo: Yuhikaku, 2003 (Co-authored).

Ian JACOBS
President and Vice-Chancellor, UNSW Sydney

Professor Ian Jacobs took up the role of President and Vice-Chancellor of UNSW Sydney in 2015. Since joining UNSW he has led an ambitious ‘UNSW 2025 Strategy’ focused around the role of the university in serving society, through research excellence, innovation in education, social engagement, knowledge transfer and global impact.

Prior to moving to Australia he was based in the UK combining roles as a cancer surgeon and Professor of Women’s Health, with leadership roles as Dean of Biomedicine at University College London (2009-11) and Vice President of the University of Manchester (2011-15).

He trained in medicine at Cambridge University and the University of London and for 30 years has led a research team working on screening for ovarian cancer.

He is a Board member of Research Australia, the Business/Higher Education Round Table (BHERT), the Information and Privacy Commission NSW (IPC), Ovarian Cancer Australia and The Conversation; was the 2018 Chair of the Group of Eight Universities, is Chair of the Sydney Partnership for Health Education, Research and Enterprise (SPHERE) and was appointed to the Universities Australia board commencing in 2019. In 2005 he established the Uganda Women’s Health Initiative and he is a non-Executive Director of Abcodia Ltd., a diagnostics company he founded as a spin out from his research.
Yong-Hak Kim
President, Yonsei University

Professor Yong-Hak Kim received his bachelor’s degree in sociology from Yonsei University, and his master’s and doctorate degrees in sociology from the University of Chicago in 1986. Since beginning his professorship at Yonsei University in 1987, Professor Kim had taken various senior administrative positions, including Vice-Director of Planning, Director of Admissions, and Dean of the University College, the College of Social Sciences, and the Graduate School of Public Administration. He became the 18th President of Yonsei University in February 2016.

Recognized for his academic achievements, Professor Kim received prestigious awards including the Yonsei University Academic Excellence Award, Gallup Outstanding Paper Award, National Academy of Sciences Outstanding Publication Award, and Ministry of Culture, Sports, and Tourism Outstanding Publication Award. He also served on the editorial boards of the American Journal of Society and Rationality and Society, the two leading journals in sociology.

Since his term as President, Professor Kim has implemented the philosophical spirit of 3Cs (Christian Values, Creativity, Connectivity) as the guiding principle of Yonsei University. Based on this, he stipulated 10 policy tasks to be completed by 2020 under the title of “Future Challenges 10 by 20” in order to prepare for the next 100 years as a “future university.”
BIOGRAPHIES OF INVITED SPEAKERS

Kathy BELOV
Pro-Vice Chancellor (Global Engagement), The University of Sydney

Professor Kathy Belov is the Pro-Vice Chancellor (Global Engagement) at the University of Sydney. In this position she takes responsibility for managing the development and execution of the University’s global engagement strategy. Key priorities are the development of the capacity of academic and professional staff to support international student learning and international research collaborations, and to achieve educational excellence in the international arena. She also promotes the University’s position in the international academic and research community, and identifies and enables strategic opportunities for partnership and collaboration in research and education.

Kathy’s research is based in the School of Life and Environmental Sciences (SOLES) and her focus is on comparative genomics and immunogenetics of Australian wildlife. Her team studies Tasmanian devils, koalas, wallabies, platypus and many other species. Kathy has received two Eureka awards, the Crozier medal and the Fenner medal for her research.

Suzanne BODA
Senior Vice President – Los Angeles, American Airlines

As Senior Vice President – Los Angeles, Ms. Boda is charged with developing and achieving America’s strategic goals as it continues to strengthen its presence in Los Angeles and throughout Southern California. Prior to this position, she was Senior Vice President – Hub and Gateway Operations, where she oversaw American Airline’s large domestic airports. She has also held the role of Senior Vice President of Asia, Canada, Europe and Cargo Operations.

Boda began her aviation career with Northwest Airlines in 1983 as a passenger service representative and Japanese interpreter at Northwest’s Minneapolis hub. She served as Northwest’s vice president, inflight services; vice president, customer service station operations and vice president, customer service of Northwest’s hub in Memphis, Tennessee.

Suzanne currently serves as a board member with The Franklin Institute in Philadelphia, the American Association of People with Disabilities in Washington, D.C., the Gustavus Adolphus College board, the Los Angeles Economic Development Committee, and serves as a member of the Far East Asian Art Committee at the Philadelphia Museum of Art.

Boda also serves as executive co-sponsor of American Airlines’ PRIDE Employee Business Resource Group, and recently served as executive sponsor of AA’s Women’s Leadership Program.

She holds a Bachelor of Arts in Asian studies and in Spanish from Gustavus Adolphus College in St. Peter, Minnesota.

Suzanne lives in Los Angeles, California. Together with her husband, George, she is an avid snow and water skier, runner and enjoys spending time with her family.
Chiapei CHOU  
Executive Vice President, National Taiwan University

Professor Chiapei Chou is the Executive Vice President and a Distinguished Professor of Civil Engineering at National Taiwan University. As an advocate for global engagement, Professor Chou provides strategic leadership in advancing the university's international presence and works collaboratively with administrators, faculty and students to pave way for innovative research and educational opportunities.

Professor Chou’s research interests include automatic inspection, evaluation, and management of highway as well as airport pavement facilities, motor vehicle size and weight studies, and roadway safety. She developed the first generation of Pavement Management Systems for the National Freeway Bureau, General Highway Bureau, and the Taoyuan International Airport in Taiwan. Moreover, she initiated and completed two Chinese National Standards (CNS) for verifying the inertial profiler and develops a Center for Pavement Profiler Verification in Taiwan. She has supervised over 100 Ph.D. and master students, published more than 240 technical papers and 82 research reports.

Prior to her current position, she served as the Director of the Science and Technology Division at the Taipei Representative Office in Houston, Los Angeles and Washington, D.C. (2011-2016). Professor Chou received her MS and Ph.D. degrees from the Department of Civil Engineering, University of Texas at Austin.

Rosa DEVÉS  
Vice President of Academic Affairs, University of Chile

Rosa Devés (Biochemist, Universidad de Chile; Ph.D. in Biochemistry, The University of Western Ontario, Canada) is Professor at the Faculty of Medicine, University of Chile. Alongside her scientific career in the area of cell physiology, she has been engaged in the improvement of science education at the schools, mainly through her work in a nation-wide inquiry based science education program.

At the University of Chile, she has served as Graduate Director (2006-2010), Provost (Prorector, 2010-2014) and Vice-President of Academic Affairs (2014-present). At these positions she has been involved in strengthening equity and inclusion at the University with the aim of generating more opportunities for students coming from underprivileged contexts and a richer learning environment for all. Since 2003, she has been a corresponding member of the Chilean Academy of Sciences.

Jared DIAMOND  
Professor of Geography, UCLA

Jared Diamond is a Pulitzer-prize-winning author of five best-selling books, translated into 38 languages, about human societies and human evolution: Guns, Germs, and Steel, Collapse, Why Is Sex Fun?, The Third Chimpanzee, and The World until Yesterday. As a professor of geography at UCLA (University of California at Los Angeles), he is known for his breadth of interests, which involves conducting research and teaching in three other fields: the biology of New Guinea birds, digestive physiology, and conservation biology. His prizes and honors include the U.S. National Medal of Science, the Pulitzer Prize for Non-fiction, the Tyler Prize for Environmental Science, and election to the U.S. National Academy of Sciences. He is a director of World Wildlife Fund/U.S. As a biological explorer, his most widely publicized finding was his rediscovery, at the top of New Guinea’s remote Foja Mountains, of the long-lost Golden-fronted Bowerbird, previously known only from four specimens found in a Paris feather shop in 1895.
BIographies of invited Speakers

Jiro KOKURYO

Professor Kokuryo is a Professor at Keio University’s Faculty of Policy Management as well as a Professor at its Graduate School of Media and Governance. He has served as a Vice-President of Keio University since July 4, 2013.

Prior to joining Keio University, Professor Kokuryo worked for Nippon Telegraph and Telephone, where he promoted the use of information technologies for corporate users. Professor Kokuryo has played a central role in formulating Japan’s information technology policies. He also works closely with volunteer organizations and was commended by the Minister of Internal Affairs for his distinguished service to the development of regional societies.

Professor Kokuryo holds a bachelor of economics from the University of Tokyo (1982), Master in Business Administration (MBA) from Harvard Business School (1988), and Doctor of Business Administration (DBA) also from Harvard Business School (1992).

Professor Kokuryo has played roles in the governance and academic activities of APRU. On the governance side, he served as Co-Chair of the APRU’s International Advisory Committee; while on the academic side, he served as co-chair of the “AI for Everyone” project sponsored by Google. He is currently co-chair of the APRU-ESCAP-Google project entitled “AI for Social Good.”

Jerry KANG

Jerry Kang is Distinguished Professor of Law, Distinguished Professor of Asian American Studies, the inaugural Korea Times Endowed Chair, and UCLA’s inaugural Vice Chancellor for Equity, Diversity and Inclusion. He graduated magna cum laude from Harvard College (physics) and Harvard Law School, where he was a supervising editor of the Harvard Law Review. After clerking for the Ninth Circuit Court of Appeals, he started his teaching career at UCLA in 1995. A leading scholar on implicit bias, critical race studies, and communications, Professor Kang regularly collaborates across disciplinary boundaries on wide-ranging scholarly, educational, and advocacy projects. An inspiring teacher, he has received UCLA’s highest recognition: the Eby Art of Teaching Distinguished Teaching Award. In 2015, he entered senior administration as a Vice Chancellor, with the mission to “build equity for all.”

Jenny DIXON

Professor Jenny Dixon is Deputy Vice-Chancellor (Strategic Engagement), The University of Auckland. She is responsible for the international portfolio, government (including Auckland) and stakeholder relations in New Zealand, alumni relations and development and the Auckland Confucius Institute. She has oversight of the North Asia Centre for Asia-Pacific Excellence (CAPE), hosted by the University in partnership with the Universities of Otago, Victoria and Waikato, to enhance New Zealand’s economic engagement and cultural understanding with the region. Professor Dixon is a member of the NZ-US Council.

Professor Dixon trained as a planner and she has previously held the positions of Head of the School of Architecture and Planning and Dean of the National Institute of Creative Arts and Industries at the University of Auckland. Her research has focused on urban development and policy, environmental governance and sustainable design.

Professor Dixon represents the University on several international organisations, including Association of Pacific Rim Universities (APRU), Asia-Pacific Association for International Education (APAIE) and chairs the Universitas 21 Senior Leaders Group. She has a strong interest in gender and diversity and has been co-chair of the APRU Asia-Pacific Women in Leadership Group.
**Sabrina LIN**  
*Vice-President for Institutional Advancement, The Hong Kong University of Science and Technology*

Professor Sabrina Lin is the Vice-President for Institutional Advancement at the Hong Kong University of Science and Technology, with responsibilities for development and fundraising, alumni relations, public affairs, and university, government and enterprise partnerships.

Prior to joining HKUST, Sabrina spent 30 years in the IT sector in Silicon Valley and Asia Pacific regions, including Corporate Vice President positions at Fortune 100 companies, as well as co-founder of start-up companies. A native of Hong Kong, Sabrina completed her undergraduate and postgraduate studies in statistics and psychology at Stanford University. A mother of four, she enjoys jogging, hiking and exploring the world with her family.

**Veerabhadran (Ram) RAMANATHAN**  
*Victor C. Alderson Professor of Applied Ocean Sciences and Distinguished Professor of Atmospheric Sciences, Scripps Institution of Oceanography, UC San Diego*

Ramanathan discovered the greenhouse effect of CFCs (chlorofluorocarbons) in 1975 and showed that a ton each of CFC-11 and CFC-12 has more global warming effect than 10000 tons of CO₂. This discovery established the now accepted fact that non-CO₂ gases are a major contributor to planetary warming and also enabled the Montreal protocol to become the first successful climate mitigation policy. He led the Indian Ocean experiment which helped discover the wide-spread Atmospheric Brown Clouds (ABCs) and quantified the climate forcing due to black carbon. Based on his research, the UN created the Climate and Clean Air Coalition (CCAC) to mitigate non-CO₂ super pollutants. His other major contribution is the use of the Earth Radiation Budget Experiment satellite to determine the magnitude of the water vapor feedback and the sea-ice albedo feedback, two feedbacks which dominate climate sensitivity to anthropgenic climate forcing.

He founded, designed, and leads Project Surya along with daughters Nithya Ramanathan and Tara Ramanathan; to mitigate climate and health impacts of cooking with solid biomass to protect the bottom three billion from climate change. In January of 2018, he launched a multi-campus undergraduate course on Climate Solutions to educate a million climate warriors. He chaired a major initiative of the ten-campus UC system effort titled: *Bend the Curve towards Carbon Neutrality and Climate Stability*. Along with Ben Houlton (UC Davis) created the California Collaborative for Climate Change Solutions, consisting of 21 major colleges and universities in California.

He was honored as the science advisor for Pope Francis’ holy see delegation to the historic 2015 Paris climate summit. Professor Ramanathan serves in the council of the Pontifical Academy of Sciences that reports to Pope Francis. He has been elected to the US National Academy and the Royal Swedish Academy. In 2013, the UN environment program named him Champion of Earth. In 2018, he (with James Hansen) was honored as the Tang Laureate for sustainability science.
Christopher TREMEWAN
Secretary General, Association of Pacific Rim Universities

Dr. Tremewan was elected 4th Secretary General of the Association of Pacific Rim Universities and took up the role from June 2011.

Before heading the APRU International Secretariat, he was the Vice-President/Pro Vice-Chancellor (International) of the University of Auckland, New Zealand.

He holds bachelor’s and master’s degrees in social anthropology from the University of Auckland, a master’s degree in Public Administration from Harvard University, and a Ph.D. in political science (on Southeast Asian politics) from the University of Canterbury.

Joanna REGULSKA
Vice Provost and Associate Chancellor of Global Affairs, UC Davis

Professor Joanna Regulska is the Vice Provost and Associate Chancellor of Global Affairs and a Professor of Gender, Sexuality and Women’s Studies at the University of California, Davis. With 30+ years of international experience, she has led diverse and transformative partnerships, educational and research projects. She was an AIEA Presidential Fellow (2010-11), received a Doctor Honoris Causa from Tbilisi State University, Georgia (2011), and a Fulbright U.S.-Korea International Education Administrator Award (2013). Professor Regulska serves on the Founder Board of The Foundation in Support of Local Democracy, the largest NGO in Poland that works with governments, businesses and industry partners to strengthen local economy and self-governance. To recognize her work, the President of Poland awarded Regulska the Cavalier Cross of the Order of Merit of the Republic of Poland (1996), Knight’s Cross of the Order of Restitution of the Republic of Poland (2004), and Commander’s Cross of the Order of Polonia Restituta (2014).
Cindy FAN
Vice Provost for International Studies and Global Engagement, UCLA

Professor Fan is UCLA’s Vice Provost for International Studies and Global Engagement and is the first woman and Asian to hold that position. She is also Professor of Geography, and is formerly Chair of the Asian American Studies Department and Associate Dean of Social Sciences at UCLA.

As UCLA’s senior international officer, Professor Fan provides strategic leadership for the university’s international partnerships and education and global engagement. She also oversees the International Institute and its 30 interdisciplinary research centers and degree programs. She serves on the Advisory Committee of the University of California Education Abroad Program, is on the Advisory Board of Sister Cities of Los Angeles, and co-chairs APRU’s International Policy Advisory Committee.

Professor Fan was born in Hong Kong and received her BA from The University of Hong Kong and her MPhil from The Chinese University of Hong Kong. She received her PhD from the Ohio State University and has been a Professor at UCLA since 1989. Internationally known for her research on migration, regional development and gender in China, Professor Fan has numerous publications, including the book *China on the Move*, a pioneering study on rural-urban migration in China. She has also co-edited the international journals *Regional Studies* and *Eurasian Geography and Economics*.

A regular commentator for the *New York Times* and China Radio International, Professor Fan is a frequent contributor to the media, such as the BBC, National Public Radio, Hong Kong TVB, and the Tavis Smiley Show. She has delivered numerous keynotes in the US, Europe, Asia, Africa and Australia. Professor Fan has received the UCLA Distinguished Teaching Award, the Distinguished Scholar Award from the Asian Geography Specialty Group of the American Association of Geographers, the American Council on Education Fellowship, and major grants from the Henry Luce Foundation, Andrew Mellon Foundation and National Science Foundation.

Robin L. GARRELL
Vice Provost for Graduate Education and Dean, Graduate Division, UCLA

Professor Robin Garrell has been the Vice Provost for Graduate Education and Dean of the Graduate Division at UCLA since 2011. The Graduate Division serves nearly 10,000 students and 1000 postdoctoral scholars in more than 100 graduate academic and professional degree programs. A professor of Chemistry and Bioengineering, Robin is also the institutional leader of the UCLA Center for Innovation in Research, Teaching and Learning (CIRTL).

Professor Garrell has increased graduate student diversity and supported inclusive success by promoting holistic admissions, improving mentoring practices and expanding professional and career development opportunities to prepare graduate students and postdoctoral scholars for diverse careers. She led the team that developed the UC Presidential Policy on International Activities, which supports expanding opportunities for global engagement.

A Fellow of the American Association for the Advancement of Science, Robin currently chairs its Committee on Opportunities in Science, is a member of the GRE Governing Board, chairs the TOEFL Board, and is an elected Commissioner on the Western Association of Schools and Colleges Senior College and University Commission. She previously served as President of the Society for Applied Spectroscopy and chaired the UCLA Academic Senate.
Gail Kligman
Associate Vice Provost, International Institute, UCLA

Professor Gail Kligman is Distinguished Professor of Sociology and Associate Vice Provost of the UCLA International Institute. She is also a member of the Chancellor’s Advisory Council on Immigration Policy. Her research focuses on politics, culture, and gender in Central East Europe, both during and after the communist period, with particular emphasis on ethnographic and archival research in Romania. She has recently begun a project on migration from a village in northern Romania to northern Italy.

Professor Kligman has been the recipient of prestigious research grants from the National Science Foundation, the National Endowment for the Humanities, the American Council of Learned Societies, the Woodrow Wilson Center for International Scholars, the MacArthur Foundation, the Soros Foundation, and the Russell Sage Foundation.

Yojana Sharma
Asia Editor, University World News

Ms. Sharma is Asia Editor of the online publication University World News. She is science and education journalist, and was previously foreign correspondent for global news agencies and major newspapers including the Daily Telegraph, Sunday Telegraph and Sydney Morning Herald with postings in Geneva, Brussels, Central America, Hong Kong and China, New Delhi and Berlin, before returning to London as an international affairs writer and commentator for Times Educational Supplement and as a correspondent for the South China Morning Post. She also contributes to major news outlets including the BBC’s Knowledge Economy series and Nature Index.

Ms. Sharma has a degree in International Relations from the University of Sussex, UK; a postgraduate qualification in Digital Media Management from Birkbeck, University of London; and studied International Economic Relations at the University of Konstanz, Germany. Her books include the novel The Buffalo Thief and the economic sector study Television in India: Perspectives and Opportunities in a Changing Environment (as co-author).

UCLA 100 YEARS
SEE YOU IN HONG KONG!

APRU ANNUAL PRESIDENTS’ MEETING

21–23 JUNE, 2020

APRU

THE UNIVERSITY OF HONG KONG
The number of people fleeing conflict, violence and disasters across the world has never been higher. Most refugees do not live in camps - forced displacement is now an urban phenomenon. Globally some 60% of forcibly displaced people live in cities, a number which is as high as 90% in some countries.

This is an ideas competition. The brief is to design a physical intervention or series of interventions that meaningfully improves the lives of refugees in the city. Above all, design interventions must result from the consideration of ‘non-physical’ issues such as social engagement, integration, livelihoods and governance. Interventions can be in any city or cities anywhere in the world, responding to a real or hypothetical situation.

This is a particularly complex area of engagement, where past design-only interventions have failed. Yet, the need for finding meaningful ways to successfully engage with refugees in cities has never been greater.
In partnership with the Association of Pacific Rim Universities (APRU), the Institute for Public Policy (IPP) at the Hong Kong University of Science and Technology (HKUST) will host an inaugural Asia-Pacific Conference on Innovation and Entrepreneurship Ecosystems (APCIIE) in this coming December. The conference aims at creating a venue for critical dialogues focusing on nurturing innovation and entrepreneurship ecosystems and inspiring collaboration across disciplines, sectors, and geographies. Bringing together thought leadership and key stakeholders, the conference will bridge the knowledge gap between researchers, policy-makers, business leaders, university leaders, entrepreneurs and investors on the pressing issues of converting existing strengths of research universities into resources that catalyze innovation.

**Call for Papers**

We seek submissions for papers —
from academics and successful practitioners on the area of innovation and entrepreneurship ecosystems. In a broad sense, encompassing topics related, but not limited to:
1) The roles of research universities in accelerating the development of innovation hubs
2) University-industry-government collaboration for innovation-led development
3) Fostering entrepreneurship for enhancing the innovation ecosystems
4) Smart cities as innovation hubs
5) Achieving entrepreneurial success in innovative technological areas in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA)

To submit a paper proposal, please email an abstract of no more than 500 words to apcieee2019@ust.hk no later than June 15, 2019. The APCIIE organizing committee will review the abstracts and announce selection results by email one month after the submission deadline.

**Conference Fee**

US$500 including all sessions, lunches and GBA field trip.

**Program At-a-Glance**

<table>

**Keynote Lectures by**

- Professor Harvey Lodish, Founder of Genzyme, Whitehead Institute, MIT
- Professor Perez Laz, President of Technion, Israel
- Dr Raj Thampuran, Managing Director of M-STAR, Singapore
- Professor Tienia Tan, Vice Minister, Italian Office of the Central People’s Government in the Hong Kong Special Administrative Region (HKSAR) of China
- Dr. David Chung, Under Secretary for Innovation & Technology, Government of the HKSAR
- APRU Senior Leaders

**Field Trip to the GBA**

A one-day field trip to the Guangdong-Hong Kong-Macao Greater Bay Area (GBA).

- APRU Presidents’ forum
- Presentations on the area of innovation and entrepreneurship ecosystems
- Exhibition of research commercialization and signature start-ups

**Important Dates**

- 15% Abstract Submission Deadline
- 15% Notification of Abstract Acceptance
- 15% Full Paper Submission Deadline
- 2-4-12 Conference

https://ipp.ust.hk/apcieee

Enquiries: apcieee2019@ust.hk
The Asia-Pacific’s most influential meeting of university, business and government leaders takes place at the APEC University Leaders’ Forum, an official event of the APEC Leaders’ Week and a side event of the APEC CEO Summit.

University leaders who register for the Forum will receive a substantial discount on the registration fee for the CEO Summit to enable them to network with national delegations and corporate heads.

Speakers will examine the likely impact of technological developments on gender and society.

Invited Speakers and panelists:

**Jacinda Ardern**  
Prime Minister of New Zealand

**Michelle Bachelet**  
UN High Commissioner for Human Rights and former President of Chile

**Carrie Lam**  
Chief Executive, Hong Kong SAR

**Tan Sri Datuk Rebecca Santa María**  
Executive Director, APEC Secretariat

**Alicia Bárcena**  
Executive Secretary, UN Economic Commission for Latin America and the Caribbean

**Juan Somavia**  
former Director-General, International Labor Organization

Top executives of Elsevier, Johnson & Johnson, and Merck

University Presidents:

**Gene Block**  
UCLA

**Ennio Vivaldi Véjar**  
University of Chile

**Tan Eng Chye**  
National University of Singapore

**David Garza**  
Tecnológico de Monterrey

**Rocky S. Tuan**  
The Chinese University of Hong Kong

...and more
