Conclusion

War has affected many peoples lives. In the cards about Sadako and Anne Frank, we showed how the war affected their lives. It is a very sad thing in this world that people have to die just because of the hatred towards others. We think it is wrong that someone should die for something that is so petty. For example, in World War II thousands of Jewish people died just because of the hatred Hitler and his followers had towards the Jewish people. Another example is Sadako, sher died from a disease an atom bomb gave her. She would probably have lived past the age

In conclusion we think war is necessary in some cases but not all the time. For example, the attack on the U.S. was very bad, though we think that the people behind this should pay we still believe that the civilians of Afghanistan shouldn't have their houses bombed for something they had nothing to do with. War is a horrible, necessary or not, but it will never end. the only thing we can do is keep hope that someday we will have peace throughout the world even if it is only a short
